## UPDATE: Change in Assessment Rate

On November 15, 2023, the Maine Vaccine Board (MVB) convened to discuss a modification to the 2023 assessment rate. This adjustment was prompted by the introduction of the RSV immunization and the commercialization of the COVID-19 vaccine. The Board resolved to implement an interim assessment rate of \$10.04, to be submitted by February 15, 2024.

### What does this mean for you?

- **The interim assessment rate of \$10.04 will be due on February 15, 2024**
- The 2024 assessment rate will be determined by the MVB on May 1, 2024.
- The MVB FY24 assessment rate will become effective Q1 (July – September 2024) with a filing due date of November 15, 2024.

The MVB follows the State fiscal year for assessment rate filings as listed below:

Quarter No.	Filing Quarter	Filing Due Date
1	July – September	November 15
2	October – December	February 15
3	January – March	May 15
4	April – June	August 15

For future planning, please be advised of an anticipated increase in the 2024 assessment rate. This adjustment is primarily attributed to the inclusion of the COVID vaccine and RSV in the assessment calculations.

Please feel free to contact us with any questions. Thank you for your continued support of Maine’s universal childhood immunization program.
